
RLA1 (μ^-) at $L = 1300$ km: survival of the born flavors
$\nu_\mu \to \nu_\mu$: 140 of 596 events / yr survive (0.235, same events)
$\bar{\nu}_e \to \bar{\nu}_e$: 184 of 198 events / yr survive (0.932, same events)
unoscillated, MINT
oscillated, MINT
unoscillated
oscillated
GENIE sample, unoscillated
same events, oscillated
